2004

SEKAPUR SIREH DARIPADA YANG DIPERTUA MUNICIPAL PRESIDENT MESSAGE

Saya sukacitanya membentangkan Laporan Tahunan Majlis Perbandaran Pulau Pinang bagi tahun 2004 yang telah disediakan mengandungi maklumat mengenai komitmen majlis dalam usaha menjana pembangunan ekonomi, meningkatkan taraf hidup serta menyediakan kemudahan awam kepada penduduk tempatan sepanjang tahun ini.

Pada tahun 2004, Majlis memperolehi RM171.6 juta termasuk RM25 juta daripada jualan unit perumahan / kedai projek Turnkey di Jalan Sungai. Pendapatan daripada cukai taksiran merupakan hasil utama berjumlah RM95.2 juta. Bilangan harta yang boleh dikenakan cukai meningkat kepada 201,311 unit pada tahun 2004 berbanding 190,029 unit pada tahun 2003.

Majlis tidak menaikkan kadar taksiran selama lima tahun berturut-turut kerana negara masih belum stabil. Defisit tahun 2004 ditampung daripada wang rezab Majlis. Senarai Nilaian Semasa telah luput tempoh lima tahunnya. Majlis bersetuju tidak menilai semula harta dalam kawasan Majlis. Namun Majlis melanjutkan tempoh sehingga 31 Disember 2004 kerana sewa pasaran harta-harta tidak stabil. Satu Senarai Nilaian Baru disediakan Majlis dan dikuatkuasakan pada 1 Januari 2005.

Majlis akan mengurangkan peratusan kadar bagi sektor hotel, kediaman, perdagangan dan tanah kemajuan di kawasan Bandar berbanding luar Bandar. Untuk kediaman berhak milik strata dikenakan kadar yang lebih rendah daripada kediaman biasa (landed properties).

Projek kemudahan awam dan infrastruktur yang diteruskan ialah projek mengubahsuai dan menaiktaraf Stadium Bandaraya Lorong Kulit, Pulau Pinang telah siap sepenuhnya pada bulan Mac 2004 dengan belanja sebanyak RM12.76.

I have the pleasure to present the Municipal Council of Penang Island's Annual Report for 2004 containing information on the Council's commitment in generating economic development, improving the standard of living as well as providing public amenities to local residents during the year.

In 2004 the Council managed to earn RM171.6 million including RM25 million from the sale of housing/shop units under the turnkey project in Jalan Sungai. Income from assessment remains as the main source of revenue amounting to RM95.2 million. The number of rateable hereditaments increased to 201,311 units in 2004 compared with 190,029 units in 2003.

Council did not increase the rate for assessment for five consecutive years as the nation's economy is still unstable. Council utilized its reserves to overcome the 2004 deficit. The current Valuation List five year period has expired. Council decided not to revalue properties within its area of jurisdiction but instead extended its validity period to 31st December 2004 due to the unstable rental of properties. A new Valuation List was prepared by the Council and enforced on 1st January 2005.

Council reduced the percentage rates for the hotel, residential, commercial and development land sector in the City as against that of properties in the rural area. Strata Title properties were imposed with rates which are lower than those of landed properties.

Council continued to implement public facility and infrastructure projects. The City Stadium in Lorong Kulit was renovated and upgraded and was fully completed in March 2004 at a cost of

Kerja-kerja pengubahsuaian yang dijalankan berlandaskan aspek rekabentuk keselamatan keindahan dan harmoni. Stadium ini dipenuhi kelengkapan moden seperti lampu ‘spot light’ yang berkuasa tinggi dan ‘score board’ yang terkini.

Projek terminal bas ekspress di hadapan kawasan tapak pesta Pulau Pinang di Bayan Baru telah siap pada bulan Jun 2004. Projek yang menelan belanja sebanyak RM5.8 juta merupakan sebuah bangunan dua tingkat yang mempunyai kemudahan seperti gerai-gerai, kedai makan, kaunter tiket, surau pondok polis dan lif. Sementara itu 34 lot bas ekspress ditempatkan di tingkat bawah bangunan. Dengan beroperasi sepenuhnya bas terminal itu dapat mengurangkan kesesakan lalu lintas yang berlaku di Bandar George Town.

Projek Pembangunan yang sedang dijalankan ialah projek ‘Little India’. Projek ini telah dibiayai melalui peruntukan Kementerian Kebudayaan, Kesenian dan Pelancongan di bawah Rancangan Malaysia Ke- 8 tahun 2001/2005. Tujuan projek ini adalah untuk memajukan kawasan ‘Little India’ sebagai pusat perdagangan, kebudayaan dan destinasi pelancongan yang unggul di Pulau Pinang. Projek pembangunan pelancongan yang telah disiapkan ialah kerja-kerja menaiktaraf kawasan Lebuh Acheh dan Lebuh Armenian yang berjumlah RM6 juta pada bulan Jun 2004.

Selain itu peruntukan disediakan bagi projek-projek untuk kemudahan awam iaitu pengambilan tanah Bayan Lepas/Titi Kerawang untuk tujuan pelaksanaan Taman Masyarakat sebanyak RM11 juta, cadangan projek pejalan kaki di Jalan Penang sebanyak RM2 juta, pembinaan jambatan baru di Sungai Pinang, pengubahsuaian Stadium Bandaraya Fasa 2 dan pembinaan mini stadium di Kompleks Sukan Balik Pulau. Majlis cadang dalam proses mengenalpasti tapak yang sesuai untuk pembinaan sebuah kompleks penjaja dan tempat letak kereta di Padang Tembak. Tujuan projek ini ialah untuk mengatasi masalah kesesakan lalulintas, menyediakan kemudahan tempat letak kereta, penyusunan semula para peniaga, kawasan rekreasi dan kemudahan komuniti. Sebagai permulaan peruntukan melalui tabung sumbangan tempat letak kereta akan digunakan.

Majlis juga memperuntukan RM500,000 pada tahun 2004 untuk tujuan kajian dan juruperunding bagi projek sebuah kompleks 5 tingkat di Lebuh Victoria/Pengkalan Weld untuk kompleks penjaja, bazaar dan tempat letak kereta. Kos pembinaan projek dianggarkan RM42 juta.

Sebagai Pihak Berkuasa, Majlis sangat peka dan mengambil berat terhadap keperluan bagi mengatasi masalah-masalah penjaja seperti

RM12.76 million. The works carried out are based on aspects of safety , aesthetic ,beauty and harmony.The Stadium is equipped with modern facilities such as high voltage spotlights and latest technology scoreboard.

The express bus terminal project in front of the Pesta Pulau Pinang site was fully completed in June 2004. The project costing RM5.8 million is a two storey building with facilities such as stalls,cafeteria,ticket counters,surau,police station and lift.34 lots for express buses are located at the ground floor.Traffic congestion in George Town will be eased when the express bus terminal is fully operational

The “Little India” project is in progress during the years. The project is financed by the Ministry of the Culture Arts and Tourism under the 8th Malaysian Plan (2001/2005). The project is aimed at the developing the “Little India” area as a commercial and cultural centre as well as the main tourist destination in Penang. Upgrading of Lebuh Acheh and Lebuh Armenian costing RM6 million was completed at a cost of RM6 million in June 2004.

Allocation are also made for public facility projects i.e land acquisition in Bayan Lepas/Titi Kerawang for the implementation of the RM 11 million Community Park, proposed pedestrian mall project costing RM 2 million, construction of a new bridge in Sungai Pinang, phase 2 of the renovation of the City Stadium and construction of a mini stadium at the Balik Pulau Sport Complex. The Council is in the process of identifying a suitable site for constructing a hawkers’ complex and a car park in Padang Tembak. It is hoped that the project when completed will overcome traffic congestion, provide parking space , proper arrangement of hawkers, recreation space and facilities for the community. Initially allocation from contribution in lieu of parking will be utilized.

Council also provided RM 500,000 in 2004 for the study and consultancy on the 5 storey complex in Lebuh Victoria/Pengakalan Weld for a hawkers complex, bazaar and a car park. The project is estimated to cost RM 42 million.

As a local authority, the Council is very concerned about the need to overcome hawkers problems such as providing and repairing business premises

menyediakan dan memperbaiki premis perniagaan dan menaiktaraf kemudahan perniagaan. Pada tahun 2004, Majlis telah menyiapkan Tapak Penjaja Lorong Delima 20 dengan kos sebanyak RM 67,200.00, kerja-kerja tambahan bumbung gerai makanan Taman Sri nibong telah juga disiapkan dengan kos sebanyak RM 297,900.00. Pada bulan September 2004, dua lagi projek yang telah disiapkan iaitu kerja-kerja tambahan dan penyediaan sistem bekalan air dan sanitari untuk 24 unit gerai dan meja bertingkat untuk 14 unit gerai di Lintang Macallum kerja-kerja pendawaian semula bagi tapak penjaja sediaada dijalankan Lim Koon Huat telah dilaksanakan selain itu sebuah tandas awam di kompleks makan Taman Desa Genting turut disiapkan. Ini adalah bagi memudahkan penjaja untuk ditempatkan di tapak yang lebih sesuai dan selesa.

Projek Lanskap yang utama dijalankan pada tahun 2004 ialah Projek Gold Bazaar di Jalan Masjid Kapitan Keling. Projek ini dibayar oleh Kerajaan Persekutuan dengan kos berjumlah RM11 juta.

Satu Kajian Pelan Induk Lanskap Pulau Pinang sedang disediakan dengan kerjasama Jabatan Lanskap Negara, Majlis Perbandaran Pulau Pinang dan Juru Perunding Tetuan Malik Lip & Associate. Sejumlah RM 294,056.40 telah diperuntukan oleh Jabatan Lanskap Negara untuk menyediakan Pelan Induk ini. Pelan Induk ini hampir siap akhir tahun. Apabila siap Pelan Induk Lanskap, ianya akan digunakan oleh Majlis dalam merancang dan melaksanakan semua program dan projek pengindahan, terutamanya bagi mencapai hasrat kerajaan untuk mengwujudkan "Negara dalam Taman" menjelang tahun 2005.

Program Kitar Semula. Aktiviti yang dilaksanakan ialah pembekalan tong kitar semula, pendidikan awam untuk kesedaran masyarakat dan membeli bahan-bahan kempen dan juga kejayaan program ini telah mendapat pengiktirafan dari pihak Kementerian Perumahan dan Kerajaan Tempatan. Promosi kitar semula akan diteruskan oleh Majlis dengan kerjasama Jabatan Alam Sekitar dan agensi swasta lain.

Majlis turut melaksanakan projek-projek di bawah program "Local Agenda 21" seperti projek menangani isu sampah dalam saluran sungai di Sungai Kelian, Tanjung Bungah. Projek ini telah dilancarkan pada 19 Jun 2004 dengan mendapat kerjasama dan nasihat oleh Jabatan pengaliran dan saliran. "Public Private Partnership In Community Waste Recycling". Projek di bawah projek "Public Private Partnership In Urban Environment (PPPUE) telah disempurnakan bagi tempoh 18 bulan yang bermula pada Ogos 2002 dan tamat pada Januari 2004. Kawasan-kawasan yang terlibat adalah Kampung Seronok di Bayan Lepas, jeti-jeti di

and upgrading trading facilities. Council completed the construction of the hawkers site in Lorong Delima 20 at a cost of RM67,200.00, extension of the roof of Taman Sri Nibong food complex at a cost of RM297,900 in 2004. In September 2004 two more projects were completed i.e. addition and provision of water supply and sanitary works for 24 units of stalls' tables for 14 units of stalls in Lintang Macallum. Rewiring for the existing hawkers' site at Jalan Lim Koon Huat was carried out and a public toilet at Taman Desa Genting Food Complex will be completed. The project when completed will enable the hawkers to trade in a more suitable and comfortable site.

A major landscape project carried out in 2004 is the Gold Bazaar project in Jalan Masjid Kapitan Keling. The RM11 million project is financed by the Federal Government.

The Penang Landscape Master Plan Study is being carried out with the cooperation of the National Landscape Department, the Municipal Council of Penang Island and consultant i.e. Messrs. Malik, Lip & Associates. A total of RM294,056.40 was provided by the National Landscape Department for the preparation of this Master Plan. The Master Plan is almost ready. When completed the Landscape Master Plan will be used by the Council in planning and implementing all beautification programmes and projects particularly in achieving the Government's expression of creating 'a Country In A Park' by the year 2005.

Activities implemented under the recycling programme are providing recycling bins, public education for public awareness and purchase of recyclable item. The success of this program is recognised by the Ministry of Housing and Local Government. Promotion activities for recycling will be continued by the Council with the cooperation of the Department of Environment and other private agencies.

In addition Council implemented projects under the 'Local Agenda 21' program such as handling issues pertaining to refuse in rivers such as Sungai Kelian, Tanjung Bungah. The project was launched in 19 June 2004 with the cooperation and advice of the Drainage and Irrigation Department. Public Private Partnership in community waste Recycling a project under the public private partnership in Urban Environment (PPPUE) United Nation Development Programme (UNDP) was successfully held for 18 months commencing in August 2002 and ended in January 2004. The areas involved are Kampung Seronok in Bayan Lepas, jetties in

Pengkalan Weld serta rumah pangsa kos sederhana rendah Alor Vista di Relau.

Majlis amat prihatin dalam cara hidup yang sihat dan cergas dan ini menggalakkan orang ramai menggunakan semua kemudahan sukan dan rekreasi Majlis pada tahun 2004. Majlis telah menambah program-program sukan dan rekreasinya kepada 27 program. Majlis dengan kerjasama kelab-kelab sukan dan rekreasi serta pertubuhan bulan kerajaan sedang giat mempromosikan beberapa program sukan pelancongan atau "sports tourism".

Akhir sekali saya ingin mengucapkan terima kasih kepada pembayar-pembayar cukai di Pulau Pinang (Pulau) atas kerjasama dan sifat kesefahaman, prihatin mereka ke arah menjadi Pulau Pinang sebagai destinasi pelancongan.

Sekian, terima kasih.

Dato' Haji Ahmad Phesal b. Haji Talib, DSPN., PJN., BCN., AMN

JABATAN PERKHIDMATAN PERBANDARAN URBAN SERVICES DEPARTMENT

JABATAN PERKHIDMATAN PERBANDARAN

Jabatan Perkhidmatan Perbandaran telah ditubuhkan pada 16 Januari 1992 berikutan keputusan Majlis untuk menyusun semula organisasinya bagi mewujudkan pengkhususan fungsi berdasarkan kajian yang dijalankan oleh Agensi Kerjasama Antarabangsa Jepun (JICA). Jabatan Perkhidmatan Perbandaran dibahagikan kepada 2 bahagian iaitu Bahagian Pentadbiran dan Bahagian Pembersihan.

FUNGSI-FUNGSI JABATAN

- Pengurusan sisa pepejal
- Menyapu jalan dan membersih parit
- Membersih pasar, kompleks makanan penjaja dan tapak penjaja
- Membersih tandas awam
- Membersih pantai, sungai dan laut (sisa pepejal sahaja).

Jabatan ini mempunyai bilangan kakitangan yang paling ramai di dalam organisasi Majlis dan mendapat peruntukan yang paling banyak (30%) untuk menjalankan fungsinya iaitu memberi perkhidmatan kepada setengah juta penduduk. Pungutan sampah dianggar meliputi 95% daripada penduduk. Pelupusan sampah di tapak menambun sampah adalah purata 600 tan setiap hari. Sampah sarap rumah, perdagangan dan institusi dipungut oleh kontraktor adalah 74% dan oleh Majlis adalah sebanyak 26%.

Pada 1 Ogos 2001 Tapak Pelupusan Sampah di Jelutong telah ditutup dengan rasminya dan semua sampah-sarap telah dibawa ke Tapak Perpindahan di Batu Maung untuk dibawa ke Pulau Burung melalui tongkang. Semua sampah-sarap akan ditimbang di Tapak Perpindahan di Batu Maung yang dikendalikan oleh Syarikat Eurasia sebelum dibawa ke Pulau Burung untuk pelupusan yang dikendalikan oleh Syarikat Idaman Bersih.

URBAN SERVICES DEPARTMENT

The Urban Services Department was established on 16 January 1992 following the Council's decision to restructure its organization in order to create specialization of functions based on the study by Japan International Cooperation Agency (JICA). The Urban Services Department is divided into 2 sections, i.e. Administration Sections and Cleansing Section.

THE FUNCTIONS OF THE DEPARTMENT

- Management of solid waste.
- Sweeping of streets and cleansing of drains.
- Cleaning of markets, hawker food complexes and hawker sites.
- Cleaning of public conveniences.
- Cleaning of breaches, river and sea (Solid waste only).

The Department has the most number of employees in the Council's organization and has the highest allocation (30%) for carrying out its functions of serving half a million residents. Waste collection is estimated to cover 95% of the population. Refuse disposal at the dumping ground averages 600 tonnes daily. Domestic, commercial and institutional waste collected by contractors is 74% and Council 26%.

The Jelutong Dumping Ground was officially closed on 1 August 2001 and all the refuse were taken to the Transfer Station in Batu Maung to be transferred to Pulau Burong by barges. All the refuse will be weighed at the Transfer Station in Batu Maung which is operated by Syarikat Eurasia before being taken to Pulau Burong for disposal by Syarikat Idaman Bersih.

Kerja-kerja menyapu sampah jalan dan membersihkan parit dijalankan dengan kerap iaitu samada setiap hari, selang sehari, dua kali seminggu atau setiap minggu. Parit-parit monsun dibersihkan oleh kontraktor Majlis. Pasar dan kompleks dibersihkan setiap hari.

Pantai di sepanjang pantai timur laut Pulau ini dari Padang Kota Lama ke Pantai Teluk Duyung (Muka Head) dan dari pesisiran Kawasan Perumahan Laut, Pengkalan Weld hingga ke Pantai Lebuhraya Bayan Lepas telah dibersihkan dengan kerap. Laut dari Pulau Jerejak ke Telok Bahang telah dibersihkan daripada sampah terapung selang sehari.

Tandas awam di pasar, kompleks makanan dan tempat-tempat lain dikendalikan oleh kakitangan Jabatan ini.

Road sweeping and drain cleansing are carried out on a regular basis either daily, on alternate days, twice a week or weekly. Monsoon drains were cleaned and desilted by Council contractors. Markets and complexes are cleaned daily.

Beaches along north-east coast of the Island from Padang Kota Lama to Pantai Teluk Duyung (Muka Head) and from Persisiran Kawasan Perumahan Laut, Pengkalan Weld to Pantai Lebuhraya Bayan Lepas, are regularly cleaned. The sea from Pulau Jerejak to Telok Bahang is cleared of floating debris on alternate days.

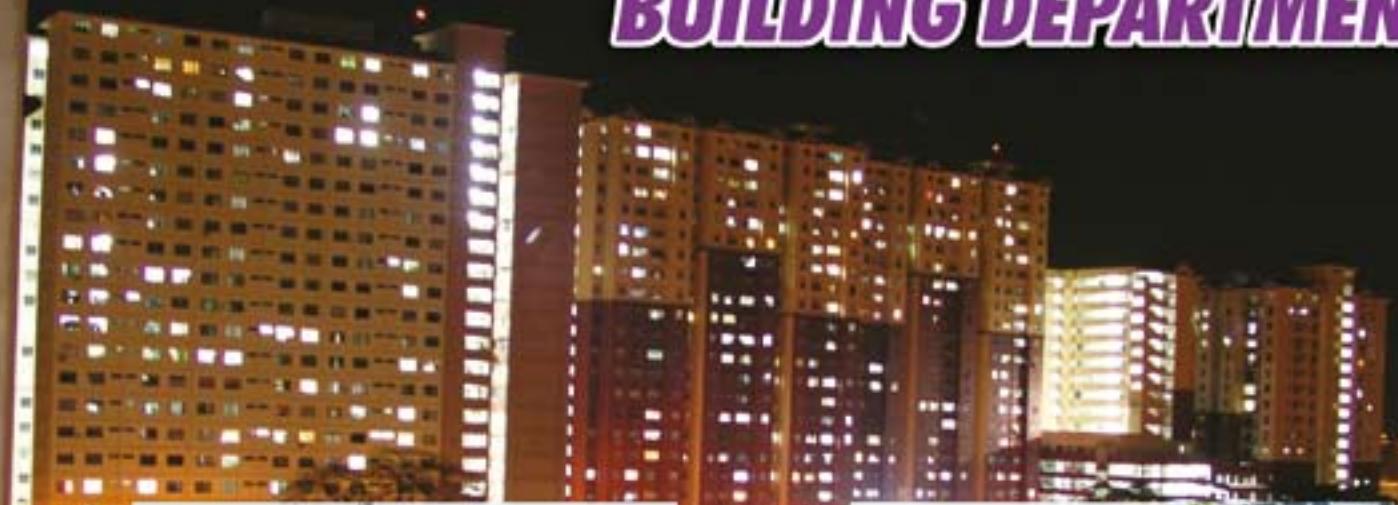

Public conveniences at markets, food complexes and other locations are manned by the department staff.

JABATAN BANGUNAN **BUILDING DEPARTMENT**

JABATAN BANGUNAN

FUNGSI

- Kawalan Bangunan
- Proses Pelan-Pelan Bangunan
- Memproses Permohonan Kebenaran Memulakan Kerja
- Memproses Permohonan Sijil Penghunian
- Menyelaras dan Melaksanakan Projek-projek Kemajuan

Seperti tahun-tahun sebelum ini, Jabatan Bangunan berusaha dengan gigih bagi menangani perkembangan yang dibawa oleh industri pembinaan akibat pertumbuhan dan peningkatan yang positif di dalam senario ekonomi negara, khususnya di Pulau Pinang. Bilangan pelan-pelan bangunan yang dikemukakan kian meningkat dan tekanan luaran dan dalaman diterima untuk mempercepatkan pemerosesan pelan-pelan bangunan dan dalam masa yang sama pengharapan orang awam terhadap mutu dan perkhidmatan terus kian meningkat.

PELAKSANAAN SISTEM KELULUSAN SERTA MERTA (ON THE SPOT APPROVAL)

Sistem pengemukaan pelan-pelan mudah untuk kelulusan serta merta telah diperkenalkan oleh Majlis pada tahun 1996. Melalui sistem ini, pelan-pelan bangunan untuk binaan kediaman yang tidak melebihi lima (5) tingkat dan tidak melebihi empat (4) unit yang sama seperti Permohonan Merancang yang telah diluluskan boleh dikemukakan oleh pihak perunding untuk pertimbangan. Setiap perunding dibenarkan untuk mengemukakan dua (2) permohonan pada sesuatu masa. Perlaksanaan sistem ini diadakan setiap dua (2) kali sebulan. Sepanjang tahun 2004, sistem ini telah berjalan dengan lancarnya. Memandangkan berlaku peningkatan dan permintaan yang tinggi di dalam sektor pembinaan, bilangan permohonan pengemukaan pelan-pelan mudah juga dijangka akan meningkat pada tahun hadapan.

BUILDING DEPARTMENT

FUNCTION

- Building Control
- Processing of building plans
- Processing of application for permission to commence work
- Processing of application for occupation certificates
- Co-ordination and implementation of development projects

As in the previous years the Building Department was compelled to work even harder to handle development brought about by the construction industry following the good economic growth throughout the country, particularly in Penang. The number of plans continued to increase and external and internal factors to expedite the processing of building plans and at the same time public expectation with regard to quality and service continued to increase.

IMPLEMENTATION OF THE ON THE SPOT APPROVAL SYSTEM

The system for submission of straight forward plans for on the spot approval was introduced by the Council in 1996. Under the system building plans for residential buildings not exceeding five (5) storeys and not exceeding four (4) units as in the Planning Application approved maybe submitted by the consultant for consideration. Each consultant is allowed to submit two (2) applications at any time. The system is implemented twice a month. The system was implemented smoothly in 2004. The number of plans submitted is expected to increase next year due to increasing demand in the construction industry.

KEBENARAN UNTUK MEMULAKAN KERJA SERTA MERTA

Permohonan untuk memulakan kerja-kerja pembinaan yang dibuat oleh perunding telah diproses dengan serta/merta. Sepanjang tahun 2004, semua permohonan yang diterima untuk memulakan kerja diberi kebenaran serta/merta.

PEMEROSESAN PERMOHONAN UNTUK SIJIL PENGHUNIAN

Prosedur untuk pemerosesan permohonan untuk Sijil Penghunian diperkuuhkan lagi supaya Sijil Penghunian dikeluarkan dalam tempoh dua minggu. Merinyu-merinyu bangunan diberi satu tempoh tertentu untuk melakukan pemeriksaan tapak dan memastikan semua syarat yang dikenakan dipatuhi. Jika permohonan adalah sempurna, Sijil Penghunian dikeluarkan dalam tempoh dua minggu. Prosedur ini telah diperkenalkan sejak 1993 dan sasaran Jabatan ini ialah untuk mencapai keberkesanan 100%. Pada tahun 2004 Jabatan Bangunan berjaya menepati sasaran 100% di dalam pencapaian pengeluaran Sijil Penghunian telah dikeluarkan dalam tempoh dua minggu di mana sebanyak 99 Sijil Penghunian telah dikeluarkan dalam tempoh tersebut atau pengurangan sebanyak 1% berbanding tahun sebelumnya.

PELAN-PELAN BANGUNAN YANG DILULUSKAN

Sebanyak 544 pelan bangunan telah diluluskan sepanjang tahun 2004. Daripada jumlah tersebut sebanyak 354 pelan bangunan diluluskan secara serta merta (on the spot approval).

PENDEDAHAN KAKITANGAN JABATAN KEPADA KURSUS DAN LATIHAN

Seiring dengan perkembangan dan kemajuan di dalam sistem teknologi dan pentadbiran negara, Jabatan sentiasa peka akan keperluan jabatan di dalam aspek melatih kakitangannya supaya mereka dapat menjalankan tugas-tugas mereka secara profesional dan cekap dan dengan demikian dapat

meningkatkan produktiviti. Ke arah tersebut kakitangan tertentu Jabatan bangunan telah didedahkan kepada kursus-kursus bercorak teknikal dan pentadbiran sepanjang tahun 2004 dengan tujuan meningkatkan kemahiran dan kebolehan mereka dalam bidang tugas-masing-masing. Jabatan sentiasa memberi tumpuan yang serius dalam latihan kakitangan.

PERMISSION TO COMMENCE WORK IMMEDIATELY

Applications to commence construction works made by consultants were processed immediately. During 2004 all applications received for commencement of works were approved immediately.

PROCESSING OF APPLICATIONS FOR OCCUPATION CERTIFICATES

The procedure for the processing of applications for Occupation Certificates was streamlined further to enable Occupation Certificates to be issued within two weeks. The Building Inspectors have been given a specific period to make site inspections and to ascertain whether all the conditions have been complied with. If the applications are in order, Occupation Certificates are issued within two weeks. The procedure was introduced in 1993 and the target of the Department was to achieve 100% effectiveness. In 2004 the achievement of issuing Occupation Certificate within 2 weeks was 100 % which was considered a success where 99 occupation certificate were issued within that period or decrease of 1% compared with the previous years.

APPROVED BUILDING PLANS

544 building plans were approved in 2004 and out of that 354 building plans were approved on the spot.

EXPOSURE OF DEPARTMENT STAFF TO COURSES

The department recognise the need to train its staff so that they will be able to carry out their duties professionally and efficiently as well as increase productivity in line with the progress in technology in the nation's administration. Certain staff of the department was sent for technical and

administrative courses in 2004 to improve skill and ability in their respective duties. The department is constantly giving serious attention to staff training.

PROJEK-PROJEK YANG TELAH DILAKSANAKAN OLEH JABATAN BANGUNAN

KERJA YANG DIJALANKAN PADA TAHUN 2004

Kawalan Pemajuan

Jabatan terus memproses permohonan kebenaran merancang dengan mengenakan prosedur ‘Pusat Sehenti’ dan ‘Honour System’ seperti yang telah diamalkan. Segala permohonan Kebenaran Merancang diproses mengikut prosedur, perundangan dan garispanduan yang ditetapkan.

Jabatan telah menganjurkan beberapa siri bengkel dan latihan kepada kakitangan Majlis daripada Jabatan Perancang, Bangunan, Kejuruteraan, Pelesenan dan Undang-Undang untuk memahami lebih mendalam mengenai sistem e-lams . Latihan ini penting supaya jabatan yang terlibat dalam kawalan pembangunan dapat memahami dengan lebih mendalam apabila sistem e-lams dilaksanakan sepenuhnya pada tahun 2005.

Bilangan permohonan kebenaran merancang yang diterima oleh Jabatan ini pada tahun 2004 ialah 247 permohonan. 156 permohonan telah diluluskan dan 9 ditolak pada tahun tersebut. Iaitu peningkatan 10% daripada tahun sebelumnya jumlah daripada pelan permohonan kebenaran merancang yang diterima.

Pada tahun 2004, jumlah permohonan perlanjutan kebenaran merancang yang dikemukakan kepada Majlis adalah 204 permohonan berbanding dengan 295 permohonan tahun sebelumnya.

Walaupun ada kenaikan daripada permohonan merancang yang dikemukakan tetapi penurunan berlaku dalam permohonan perlanjutan kebenaran merancang. Ini bermakna bebanan kerja masih tetap sama dari tahun sebelumnya.

Pada tahun 2004, sebanyak 73 permohonan untuk pelan cantuman dan pecah sempadan telah dikemukakan. Sebanyak 53 permohonan atau persamaan dengan 75% telah diluluskan.

The major landscape project carried out in 2004 is the Gold Bazaar project in Jalan Masjid Kapitan Keling costing RM11 million. The project is financed by the Federal Goverment. In addition, beautification projects were carried out throughout the council’s area of jurisdiction such as roundabouts, open space and trees were planted along the roads.

WORKS CARRIED OUT IN 2004

Development Control

The Department continued to process application for planning permission by implementing ‘One Stop Centre’ and ‘Honour System’ procedure. All applications for Planning Permission are processed according to stipulated procedures, legislation and guidelines.

The Department organized several workshops and training programmes for the Council’s staff from the Planning, Building Engineering, Licensing and Legal Departments to enable them to understand the e-lams system. The training is important so that the departments involved with development control will understand better when the e-lams system is fully implemented in 2005.

A total of 247 applications for planning permission were received by the departments in 2004. 156 application were approved and 9 were rejected during the year an increase of 10% from the previous year.

A total of 204 applications for extension of planning permission were submitted to the Council in 2004 compared with 295 applications submitted in 2004.

Although there was an increase in the number of planning permission submitted but there was also a decrease in the number of application for extension of planning permission. As such the workload remained the same as that in the previous year

73 applications for land amalgamation and subdivision were submitted in 2004. A total of 53 applications or 75% were approved.
